Lemon Whistle Media is a boutique, full-service design agency. We are passionate about your brand and creating websites, promotional & print materials that help you connect with your audience. Our goal is to bridge the gap between design and function and to help your business stand out from the crowd.

Branding & Identity

We work with you to define how you want your organization to be perceived, then help you establish the brand through naming, logo design, and marketing collateral as appropriate to your audience.

Print Design

We're experienced with producing print materials such as posters, stationery packages, brochures and annual reports. We want to create the best possible experience for the reader.

Campaigns

A key component in reaching your audience is advertising. We work with you to gain exposure in your desired market, whether with printed ads, online flash banners, email communications or billboards.

Web Design & Development

We specialize in creating dynamic, clean websites, optimized for download speed and search engine indexing. We try to assure the best possible experience for users whether they choose to use a desktop, laptop, smart phone, or tablet. We will develop a look and feel that is appropriate for your audience and consistent with your brand.

Presentations & Data Visualization

We can transform PowerPoint, Keynote and Flash presentations into concise, compelling visuals that support your message and tell your story.

Rates

All work, unless otherwise agreed upon, will be performed at a rate of \$120 per hour, billable in 30-minute increments.
